Installation Notes

**Maximum recommended connections
24-32V DC - 100x R960-969.**

Do not exceed 100 metres total circuit length with 0.75mm cable.

12V DC - 100x R960-969.

Do not exceed 30 metres total circuit length with 0.75mm cable.

Use driver approx 2-3 times the total circuit load to account for inrush current.

Interior/exterior wall, stair and effect lighting. Not suitable for use as inground. Suitable for use in battery powered DC systems, eg. boats.
